

Übersetzung der [Sechs Goldenen Regeln zum Spülen per Hand und in der Geschirrspülmaschine](#)
vom FORUM WASCHEN in die englische Sprache!

SIX GOLDEN RULES

... for dishwashing by hand (6 Goldene Regeln zum Spülen per Hand)

1. Put large food residues in the waste bin.
2. Soak dried-on or burnt-in food residues in water that should contain just a small quantity of dishwashing product.
3. Do not rinse the dishes under running water. Collect dishes for washing and clean them with hot water in a half-filled sink.
4. Put first the water and then the dishwashing agent in the sink. Observe the dosage instructions.
5. Let the cleaned dishes air-dry if possible or let them drain before drying.
6. Let drying cloth, dish cloth and sponge dry and change them after one week at the latest. Wash them at 60 °C, using a bleach-containing detergent.

... for dishwashing in a dishwasher (6 Goldene Regeln zum Spülen in der Geschirrspülmaschine)

1. Put large food residues in the waste bin.
2. Do not pre-rinse the dishes by hand.
3. When loading the dishwasher, make sure that all parts of the dishes are accessible to the water jets.
4. Load the dishwasher to capacity if possible; keep any contact between the dishes to a minimum.
5. Use dishwashing agent, rinse agent and regeneration salt either individually or in a multicomponent product, as instructed by the manufacturer.
6. Select an ECO-programme if possible, even if it takes longer. Please note: At least once a month operate the dishwasher at 60 °C, using a bleach-containing cleaner.
